EDUCATION

BE,Computer Engineering

Don Bosco College of Engineering Fatorda,Goa

04/2022 – present

Diploma, Computer Engineering

Agnel Polytechnic Verna,Goa

01/2019 – 03/2022

PROFESSIONAL EXPERIENCE

Intern-Frontend Developer

Hexcoderz,Vasco da Gama-Goa

- Acquired expertise in UI/UX principles, as well as proficiency in Figma, HTML, CSS, and JavaScript.

Frontend Web Developer (for a startup)

SEVACO GLOBAL VENTURES PRIVATE LIMITED

- Designed the UI/UX for a startup website.
- Implemented the design into a single-page web application.

Junior Frontend Developer

BELONG

- Assisted in project development using React.js, Next.js, Node.js, MongoDB, and Supabase.
- Deployed projects on platforms like Netlify and Heroku.

Intern Fullstack Mobile App Developer

Twinkle IT Solutions

- Built mobile apps with React Native and Flask backend.
- Integrated and managed databases.
- Deployed apps on cloud platforms.

PROJECTS

ClassCheck

- Developed a Native app using React Native, Flask and Firebase for recording attendance of students seamlessly
- Implemented a spoof detection system that distinguishes between a live person and a photo, preventing students from submitting fake attendance.

DataDock - A Web-Based Data Management Platform

- Designed to streamline file management for organizations by enabling secure uploads, processing, and retrieval of data with a user-friendly interface.
- Built a responsive web application using React, TypeScript, Vite, and Tailwind CSS, integrating Supabase for authentication and backend services.
- Enhanced user experience with real-time notifications via React Hot Toast and seamless navigation using React Router DOM.

Instructly

- **Developed a full-stack Learning Management System** using Next.js, Supabase, and Tailwind CSS, with real-time AI voice tutoring via Vapi and advanced UI components via shadcn/ui.
- **Integrated Clerk for authentication and Stripe for subscription billing**, enabling secure user access, plan management, and role-based content gating.
- **Built modular, reusable components** with TypeScript and Zod for data validation, ensuring scalable code architecture and seamless cross-device UX.
- **Implemented session history, bookmarking, and tutor creation features**, supporting AI-driven, personalized learning experiences with robust search and filtering tools.
